Reason for referral

Diagnostic assessment of ADHD

Medication review for someone already diagnosed with adult ADHD

Non-medication based interventions

Please note: Referrals for intervention and medication review can only be accepted if the diagnosis has already been confirmed. If this is the case please attach a copy of the diagnostic report. If diagnosed in the private sector, other NHS services or from abroad **we need detailed evidence of the previous assessment**. Should this not meet NICE [NG87] standards (full clinical and psychosocial assessment, full developmental and psychiatric history, observer reports and/or quotes from school reports, use of Adult ADHD specific rating scales) **the patient will go on the waiting list for new assessment**.

ADHD: key features

Please answer the questions below, rating yourself on each of the criteria shown using the scale below. As you answer each question, place an X in the box that best describes how you have felt and conducted yourself over the past 6 months. Please give this completed checklist to your healthcare professional to discuss during the appointment.

Never	Rarely	Sometimes	Often	Very often
-------	--------	-----------	-------	------------

1. How often do you have difficulty concentrating on what people are saying to you even when they are speaking to you directly?
2. How often do you leave your seat in meetings or other situations in which you are expected to remain seated?
3. How often do you have difficulty unwinding and relaxing when you have time to yourself?
4. When you're in a conversation, how often do you find yourself finishing the sentences of the people you are talking to before they can finish them themselves?
5. How often do you put things off until the last minute?
6. How often do you depend on others to keep your life in order and attend to details?
