

Risk Management Governance Framework

www.southwestyorkshire.nhs.uk

Document name:	Risk Management Governance Framework
Document type:	Trust-wide Governance Framework
What does this policy replace?	Update of previous risk management strategy and re-named to reflect the document purpose (requirement for annual review by Trust Board)
Staff group to whom it applies:	All staff within the Trust
Distribution:	The whole of the Trust
How to access:	Intranet and internet
Issue date:	V1 issued December 2008 V2 issued October 2010 V3 issued December 2011 V4 issued October 2012 V5 issued December 2013 V6 issued January 2015 V7 issued January 2016 V8 issued January 2017 V9 issued April 2019 V10 issued April 2022
Revised date:	Revised April 2025
Next review:	April 2028
Approved by:	Trust Board – 29 April 2025
Developed by:	Assistant Director of Corporate Governance, Company Secretary
Director leads:	Director of Finance, Estates and Resources
Contact for advice:	Company Secretary Corporate Governance Manager

Appendix 4 - Board risk assurance and escalation process framework	
Appendix 5 - Directors' responsibilities	
Appendix 6 - Implementation plan	
Appendix 7 - Risk related Trust documents	
Appendix 8 - Checklist for review and approval	
Appendix 9 - Version control sheet	

1. Introduction

1.1. Our mission and values

We exist to help people reach their potential and live well in their community. To do this we have a strong set of values that mean:

- We put the person first and, in the centre
- We know that families and carers matter
- We are respectful, honest, open and transparent
- We improve and aim to be outstanding
- We are relevant today and ready for tomorrow

This risk management framework will support the achievement of the organisation's mission, strategic objectives and priorities. Every aspect of the framework will be delivered in line with our values.

1.2. Purpose and scope

The purpose of the risk framework is to provide a comprehensive method for the effective and focused management of the principal risks to achieving the Trusts strategic objectives in line with the values of the Trust.

This is reported in the Board Assurance Framework (BAF) and Organisational Risk Register (ORR) as part of the annual Trust Board work plan. This provides direct evidence for the Annual Governance Statement and the Head of Internal Audit Opinion.

The Trust is committed to ensuring the safety of the people who use its services, its staff and the public through an integrated approach to managing risk regardless of whether the risk is strategic, clinical, financial or commercial or relates to compliance. The Trust recognises the importance of effective integrated risk management arrangements to underpin the safe and effective delivery of its services, its reputation and its organisational viability and sustainability. As a Foundation Trust, we must have the skills and systems in place to manage our business. Trust Board must be assured of the safety and effectiveness of services and the financial sustainability of the organisation and is responsible for developing the appetite of the Trust to take risks and the ability of the Trust to manage risk.

In turn, Trust Board must be able to provide assurance to its regulators. This includes registration with the Care Quality Commission (CQC) to be a provider of NHS commissioned services and adherence to NHS England licensing conditions.

The purpose of the framework is to set out the Trust's strategic approach to the anticipation, prevention, mitigation and management of risk, linked to the Trust's Business Plan (Operational Plan).

The framework describes the systems the Trust has in place at a strategic, corporate and operational level to ensure that assurance is provided to Trust Board through its governance arrangements and to external bodies that risk is being effectively managed within the Trust. It also sets out the framework through which Trust Board drives a culture of proactive risk management.

2. Context

2.1. Definition of risk and risk exposure

The Trust is a large and complex organisation, operating in a changing environment, and operates within two Integrated Care Systems (ICS), and can deliver within a highly political and financially challenging environment. The Trust is also subject to public scrutiny. In this context, risk cannot be completely eliminated, and the Trust's approach is to have in place systems and processes that enable it to:

- Anticipate where risks might occur
- Make sound decisions based on information and intelligence
- Minimise the likelihood or impact of potential risks

Trust Board takes a prudent and pragmatic attitude to risk, adopting a flexible approach and the determination of its response as the need arises. Trust Board acknowledges the services provided by the Trust cannot be without risk, and it ensures that, as far as is possible, risk is minimised. The Trust does not seek to take unnecessary risks and determines its approach and its appetite for risk to suit the circumstances at the time. The organisations risk appetite is set out in **Appendix 3**, and this is reviewed on an annual basis and approved by Trust Board. Where risks cannot be managed within the risk appetite of the Trust, they will be subject to further scrutiny by the relevant sub-committee as identified within the committee's terms of reference.

Risks can be broadly defined as follows:

Clinical Safety and Quality risks:

Risks arising as a result of clinical or healthcare practice(s) or those risks created or exacerbated by the environment, such as cleanliness or ligature risks or workforce i.e. the inability to recruit or retain an appropriately skilled workforce

Business risks:

Risks which might affect the sustainability of the Trust or its ability to achieve its plans, damage to the Trust's public reputation which could impact on commissioners' decisions to place contracts with the organisation.

Compliance risks:

Failure to comply with its licence, CQC registration standards, or failure to meet statutory duties, such as compliance with health and safety legislation.

Financial risks:

Risks which might affect the sustainability of the Trust or its ability to achieve its plans, such as loss of income.

Strategic risks:

Risks generated by the national and political context in which the Trust operates that could affect the ability of the Trust to deliver its plans.

In writing this framework the Trust recognises that some risks may not easily fit into any single category therefore it will ensure that risks are relevantly and accurately aligned to the most appropriate executive director to ensure effective monitoring and mitigation.

2.2. Risk reporting and procedures

The Trust uses Datixweb to support the recording, management and review of risks and production of risk registers across the Trust to ensure consistency of recording. Datix allows control measures to be recorded and actions to be scheduled, with a full audit trail of changes to risk assessment. Information feeds through levels of risk register from 'ward to Board'. The system has the ability to report at different levels, look at themes across the organisation and

risk areas, such as information governance, or health and safety, and record and manage actions. The Trust has a “**Risk Management Procedure**” for staff which sets out the processes for this system and this can be found on the Trust’s intranet.

2.3. Risk management processes

Risk management is recognised as integral to good management practice and is the business of everyone in the organisation. Risk management processes are designed to support better decision-making by contributing to a greater understanding of risks and their potential impact. The principal tools used by Trust Board to gain assurance are described in the Chief Executive’s **Annual Governance Statement**. It shows that the Trust understands its risks, is taking reasonable action to manage those risks and has action plans in place. Systems of internal control are designed to manage risk to a reasonable level rather than to eliminate all risk. Controls include the continuous assessment of the internal and external environment to identify risks to the achievement of the Trust’s objectives, ensuring mitigating action is in place and prioritising risk management through assessment of the likelihood and impact of identified risks if they materialise.

Effective management of risk relies on the following processes and systems.

To triangulate performance, risk and governance to demonstrate that all key strategic risks are captured by the risk management process; risks are appropriately highlighted and managed through the governance committees and operational meetings; and there is a clear link between risk management and identifying areas of poor performance by cross referencing the content of the performance report to the risk register.

As part of its **Licence** (issued by NHS England), the Trust is required to have a constitution in place which is compliant with legislation. The Licence also requires that the organisation is financially viable and sustainable, well governed, and that it can continue to provide commissioner requested services.

The **Constitution** of the Trust sets out the legal framework in which the Trust operates. The Constitution is based on the model core foundation trust constitution and defines the powers of both Trust Board and the Members’ Council. The **Standing Orders** of Trust Board and Members’ Council form part of the Constitution.

As part of its Standing Orders, Trust Board has approved **Standing Financial Instructions** (SFIs) and a **Scheme of Delegation** which provide the framework within which responsibility for financial decision making takes place throughout the organisation and is designed to ensure Trust Board has appropriate levels of control over financial decisions and is alerted to financial risks.

Trust Board assurance that risks to the achievement of its strategic objectives are being managed is summarised and evidenced in the **Board Assurance Framework (BAF)**. Where there are gaps in control or Trust Board has received insufficient assurance, these are reflected on the risk register. The BAF is reported to Trust Board on a quarterly basis and provides evidence of actions taken to manage risks.

The BAF and risk register are reviewed during the year to ensure the process, which is scrutinised by the Audit Committee on an annual basis, and format continue to provide an effective tool for summarising and monitoring assurance and risk management at Board level. The advice of internal audit is sought as part of this review.

The **Risk Register** links closely to the BAF and enables Trust Board to closely monitor any risks identified in the BAF where there are gaps in control (i.e., where there are external factors

which the Trust cannot control or where the measures being taken by the Trust are unable to eliminate the risk).

Risk registers are held at all levels of the Trust, including corporate / organisational level (Trust Board), Care Group level, and team level. The risk registers held by Care Groups are reviewed regularly and any risk which could have an impact across the Trust is reported to the Executive Management Team (EMT) monthly to ensure risks which may have a Trust-wide impact are recorded on the Trust's corporate / organisational level risk register.

Individual directors are responsible for ensuring there is a process for identifying risks relating to support services and for adding items to the corporate / organisational level risk register. All risk registers are designed to be 'live' working documents which support the organisation to identify, assess and manage risks.

The Trust is required by NHS England to produce an annual **Business Plan** (Operational Plan) for organisational and service development. The plan describes the key risks to delivery of the plan and how these would be mitigated. It maps the direction of travel and so supports Trust Board and service managers to identify where it may be deviating from target and take remedial action.

Annual plans are developed within each directorate and co-ordinated into a Trust plan. Annual plans are agreed with commissioners and support the delivery of the Business Plan. The plans identify service developments and changes, and the financial and workforce implications of those plans, including any required value for money programmes (VFMP).

Undertaken by the Director of Nursing, Quality and Professions, the Medical Director and the Chief People Officer, each value for money programme is subject to a **Quality Impact Assessment (QIA)** and **Equality Impact Assessment (EIA)**. The QIA assessment covers three aspects of quality person-centred, safe, effective and efficient. The assessment tool provides a quality impact rating on RAG rated scale (Blue: Improves quality; Green: Neutral impact on quality; Amber: Potential impact on quality; Red: Likely impact on quality).

The assessment is based on the Care Quality Commission's (CQC) five key domains: safe, effective, caring, responsive, and well-led. Where risks are considered to be substantive, plans may be changed or mitigating action put in place to manage the risk.

Reporting of performance against plan enables Trust Board to assess the impact and opportunities of financial decisions on clinical services and the impact of service changes on the financial position of the Trust. The reports also support Trust Board in the early identification of any risks to its strategic position, financial viability or public reputation. High level performance reports (Integrated Performance Report) are circulated to Trust Board on a monthly basis and each quarter the Board agenda is dedicated to consideration of strategic and business risks, which includes review of performance against plan and compliance.

A range of **strategies, policies and procedures** are in place to support the effective management of risk throughout the organisation, and these are located on the Trust's intranet. The Trust aims to have a whole system approach to risk management where all staff are encouraged to take responsibility for assessing and managing risk within their own sphere of responsibility and the Trust, through its management structure, and all staff have a shared responsibility for ensuring the requisite skills are in place to identify and manage risks.

In order to ensure consistency of risk quantification across the Trust a standardised set of descriptors and scoring matrices (based upon the Australian/New Zealand Standard AS/NZS 4360:2004; and used across the NHS) is used for risk analysis.

A **Risk Management Procedure document** is in place which underpins this Framework and sets out the risk management overview and process.

The whole system approach is continuously monitored by Trust Board and through the leadership and management framework to support learning and improvement.

The aim of the approach is to support an organisational culture based on prudent ambition in relation to service development and learning from experience to minimise the likelihood of risks manifesting themselves, enabling the Trust to respond positively to mitigate the impact of unavoidable risks and maximise opportunities of doing so.

Challenges in the external environment, combined with both service and structural transformation, offer opportunities to develop services but expose the organisation to a degree of risk. The Trust continues to develop its risk systems in line with the changes to its structure and leadership and management arrangements and put in place robust plans for managing risk through a period of political and financial instability, and externally and internally driven change.

3. Risk management framework objectives

The risk management framework is designed to ensure a systematic and focused approach to clinical and non-clinical risk assessment and management is in place to support the Trust in meeting the needs of decision-makers throughout the organisation and to meet all external compliance and legislative requirements, including those set by regulators.

Robust risk management systems, supported by effective training, need to be in place throughout the organisation and to be routinely used to support planning and delivery of services.

The risk management framework is a key framework for the organisation and its objectives are to:

- Provide a framework for risk management that assures Trust Board that the Trust is delivering against the framework set out in its plan
- Clarify responsibility and accountability for management of risk throughout the organisation from Trust Board to the point of delivery (from 'Board to ward'/ward to Board) and support greater devolution of decision-making as close to the user of Trust services as possible

- Define the processes, systems and policies throughout the Trust which are in place to support effective risk management and ensure these are integral to activities in the Trust

- Promote a culture of performance monitoring and improvement which informs the implementation of the Business Plan and ensure risks to the delivery of the Trust's plans and market position are identified and addressed
- Ensure staff are appropriately trained to manage risks within their own work setting and clear processes are in place for managing, analysing and learning from experience, including incidents and complaints
- Ensure approaches to individual risk assessment and management balance the rights of individuals to be treated fairly, the rights of staff to be treated reasonably and the rights of the public in relation to public protection
- Support Trust Board in being able to receive and provide assurance that the Trust is meeting all external compliance targets and legislative responsibilities, including standards of clinical quality, Monitor compliance requirements and the Trust's licence
- Enable Trust Board to define the appetite for risk and ensure this is understood and acted upon at all levels in the organisation

4. Delivery and outcome measures

Trust Board has overall responsibility and accountability for setting the strategic direction of the Trust and ensuring there are sound systems in place for the management of risk. This includes responsibility for standards of public behaviour and accountability for monitoring the organisation's performance against the agreed direction, ensuring corrective action is in place where necessary. Trust Board must be confident that systems and processes are in place to support corporate, individual and team decision-making and accountability for the delivery of safe and effective, person-centred care within agreed resources.

The agenda and focus of Trust Board meetings is continuously reviewed to ensure attention is given to both framework and implementation. Each quarter, there is a business and risk meeting which is forward looking and risk-based, a performance and monitoring meeting which provides a detailed retrospective review of performance, and a strategic meeting which also informs Trust Board development.

There are currently the following risk **committees of Trust Board**:

- Audit Committee
- Quality and Safety Committee
- Mental Health Act Committee
- People & Remuneration Committee
- Finance, Investment and Performance Committee
- Commissioning Committee
- Equality, Inclusion and Involvement Committee

Each of these committees has clearly defined **Terms of Reference** which set out the functions that the committee carries out on behalf of the Trust Board including the specific risks they are responsible for reviewing assurance in line with the Trust Risk Appetite Framework.

All committees are chaired by a Non-Executive Director. Minutes are formally presented to Trust Board one approved and assurance is provided to Trust Board by the committee chairs. The Audit Committee chair does not routinely attend any other committees to ensure objectivity; however, the Audit Committee chair has the opportunity to attend each committee once a year as part of providing assurance to Trust Board on effectiveness of other risk committees.

Membership of committees is organised to ensure good linkages through Non-Executive and Executive Directors.

The **Audit Committee** is responsible for assessing the adequacy of systems, controls assurance and governance in the organisation as described in the Annual Governance Statement and that the systems and processes used to produce information taken to Trust Board are sound, valid and complete. This includes ensuring there is independent verification of the systems in place for risk management. Responsibility for monitoring financial performance is held by Trust Board and Finance Investment and Performance Committee scrutinises the financial management systems through its links to internal and external audit.

The **Quality and Safety Committee** provides assurance to Trust Board on service quality and the application of controls assurance in relation to clinical services. It scrutinises the systems in place for effective care co-ordination and evidence-based practice and focuses on quality improvement to ensure a co-ordinated holistic approach to clinical risk management and clinical governance is in place, protecting standards of clinical and professional practice. The Clinical Governance & Clinical Safety Committee has a particular focus on ensuring standards of clinical care are improved or maintained in a climate of cost control and efficiency savings.

The **Mental Health Act Committee** is responsible for ensuring the organisation is working within the legal requirements of the Mental Health Act (1983), as amended by the 2007 Act and Mental Capacity Act (2005), as amended by the 2015 Act, and with reference to the guiding principles set out in the Code of Practice and associated legislation as it applies to the Mental Health Act, the Mental Capacity Act and Deprivation of Liberty Standards.

The **People & Remuneration Committee** has delegated authority for developing and determining appropriate pay and reward packages for the Chief Executive and Executive Directors and a local pay framework for senior managers that actively contribute to the achievement of the Trust's aims and objectives. The People & Remuneration Committee also has delegated authority to approve any termination payments for the Chief Executive and Executive Directors and is also responsible for approving Clinical Excellence awards for Consultant Medical staff. The Committee also supports the strategic development of human resources and workforce development and considers issues and risks relating to the broader workforce strategy. On behalf of Trust Board, it reviews in detail key workforce performance issues.

The **Finance, Investment and Performance Committee** prime purpose is to provide oversight and challenge of the Trust's financial performance and financial plans to ensure the Trust and the services it provides remain financially sustainable. It will also review capital plans with particular focus on the scrutiny of major investments, including post evaluation reviews, and investment proposals. The committee will also review the overall performance metrics of the Trust to identify key trends and issues. This may result in direction being given to other committees of the Board to carry out more detailed review and determine where corrective action needs to be taken. On behalf of the Trust Board, it will have an oversight of related risks, providing additional scrutiny of any such risks which are outside the Trust's Risk Appetite, giving assurance to the Board around the management of such risks.

The **Commissioning Committee's** purpose is to ensure delineation between provision and commissioning responsibilities (finance, contracting, planning and quality assurance) of the West Yorkshire Adult Secure Provider Collaborative (including Forensic CAMHS), South Yorkshire Adult Secure Provider Collaborative and other specialised mental health provider collaboratives as appropriate and to provide oversight and assurance of the Trust's commissioning responsibilities as Lead Provider.

The **Equality, Inclusion and Involvement Committee** prime purpose is to ensure the Trust improves the diversity of its workforce and embeds diversity and inclusion in everything it does, through involvement and promoting the values of inclusivity and treating people with respect and dignity. The Committee will develop and oversee a strategy, including an approach to

positive action, to improve access, experience and outcomes for people from all backgrounds and communities, including people who work and volunteer for the organisation, those who use Trust services and their families, and those who work in partnership with the Trust to improve the health and well-being of local communities. On behalf of the Trust Board, it will have oversight of related risks, providing additional scrutiny of any such risks which are outside the Trust's Risk Appetite, giving assurance to the Board around the management of such risks.

Trust Board and its committees are reviewed on an ongoing basis to ensure that Trust Board adds value to the organisation in terms of setting strategy, monitoring performance and managing risk. This includes:

- A development programme based on continuous review of the combined skills and competencies of the Trust Board
- Ongoing review of the format of Trust Board meetings to ensure best use of time and appropriate balance between strategy development and retrospective performance monitoring
- An annual review of the committee structure, membership and Terms of Reference and value added to ensure clarity of role and optimise their effectiveness

The **Members' Council** plays a key role in the Trust's governance arrangements. It provides a bridge to the community, supporting the Trust to engage with its membership and acting in an advisory role in the development of strategy and plans. The Members' Council primary duty is to hold Non-Executive Directors to account for the performance of Trust Board. Its work programme is specifically designed to reflect this duty.

The Members' Council is also responsible for monitoring the effectiveness of Trust Board including the appraisal of the Chair and appointment and removal of Non-Executive Directors. The Members' Council has a **Nominations Committee** to support this role.

Ongoing development of the Members' Council focuses on:

- Development of the interface between the Trust Board and Members' Council
- Public and staff elections to attract people who represent the diversity of the community served by the Trust and effective induction of new members
- Development of individual and collective skills of the whole Members' Council
- Development of the interface between the Members' Council and the wider membership to optimise the Members' Council's role

The Trust has three appointed Freedom to Speak Up Guardians. Specific risks identified through this role will be escalated to the lead Director as appropriate, to be dealt with in accordance with the Risk Management Framework and procedure.

The **Chief Executive** is the Accounting Officer of the Trust and has responsibility for maintaining a sound system of internal control that supports the achievement of the Trust's policies, aims and objectives, whilst safeguarding its resources.

The Accounting Officer's approach is set out in the Annual Governance Statement, which describes the system of internal control within the organisation. This is based on an ongoing process designed to identify and prioritise the risks to the achievement of the policies, aims and objectives of the Trust, to evaluate the likelihood of those risks being realised and the impact should they be realised, and to manage them efficiently, effectively and economically. The Chief Executive provides leadership to the **Executive Management Team (EMT)**. EMT is made up of executive, clinical and operational directors and is responsible for ensuring implementation of the framework agreed by Trust Board.

EMT reviews the risk register and scans clinical risks including incidents, claims and complaints to ensure they are being effectively managed, and action is being taken to minimise the risk of recurrence. EMT also reviews the strategic position of the Trust and any potential threats to income or achievement of its plans.

Extended EMT meets monthly. Extended EMT provides an opportunity to engage all first line report staff in transformation and improvement, delivery and focus on potential risks. It comprises of the Chief Executive, all executive Directors, and senior staff including deputy directors, clinical, general management and practice governance leads from Care Groups.

Care Groups are responsible for delivering safe and effective services within agreed resources within geographical or specialist service areas, within a framework of devolved responsibility to ensure effective delivery of the Trust's Business Plan and providing an effective performance framework for delivery.

The executive functions of the organisation have been reviewed to support the ongoing development of Care Groups and devolution of decision-making to service lines EMT has reviewed the way that it works to ensure effective matrix working between the Care Groups and the support directorates through a "Quality Academy" approach designed to ensure capacity in the organisation is prioritised towards delivering high quality, sustainable services. Each Care Group has a service director to support executive Directors to deliver services. They also manage the working relationship of the 'trio'-based approach at senior level, encompassing clinical, general management and practice governance to ensure excellence in service quality and delivery in terms of effective clinical engagement and prioritisation, appropriate deployment of resources and effective clinical governance.

The Chief Operating Officer is responsible for determining the configuration of service lines within the Care Groups to optimise quality and efficiency.

Trust support services, including the Nursing Quality and Professions Directorate support the organisation to:

- Combine the work of the voting executive directors, with support from the Director of Strategy and change (Deputy Chief Executive)
- Ensure key linkages and synergies between all portfolios to provide optimal support to delivery of services in Care Groups
- Ensure ongoing quality improvement and associated compliance with regulatory requirements
- Ensure linkage across key quality domains

Professional leadership arrangements are in place within the Trust for nursing, allied health professionals, medicine and pharmacy, psychological therapies and social care staff working in integrated teams to support the delivery of safe clinical services through development of the knowledge and skills of staff. This is led by the Director of Nursing, Quality and Professions and the Medical Director.

The Trust has a dedicated **Business Development and Contracting Team** to manage the relationship with commissioners ensuring there are sound systems in place to respond to issues which might affect future commissioning intentions and provide a forum for exploring opportunities for service development. Identification of risks to income, opportunities for expansion, and risks to achieving targets and key performance indicators are reported and considered through EMT meetings where appropriate action is agreed.

Effective management of the Trust's relationships with commissioners is reviewed by EMT on a regular basis to ensure it reflects the changing arrangements for commissioning set by the

Government and NHS England. The Trust is actively involved in **Integrated Care Systems** in West Yorkshire and South Yorkshire.

The Trust has historically been engaged in (or led) Provider Collaboratives/Alliances/Networks in several of our places or across a larger geography, for example – Barnsley Health and Care Alliance; Wakefield Mental Health Alliance; Kirklees Mental Health Alliance.

5. Our approach to the management of change

#allofusimprove is South West Yorkshire Partnership Foundation Trust's approach to Quality Improvement, it is the adopted consistent and systematic approach to quality improvement across the Trust and is more commonly referred to as 'QI the SWYPFT way.'

The mantra across the Trust is that quality improvement is everyone's business, no matter who, where or what role or band a colleague has within the Trust they have a role and responsibility to help us continually improve

SWYPFT has a dedicated #allofusimprovement team made up of colleagues with specialist quality improvement skills and knowledge. The #allofusimprove team provides support, advice and guidance to individuals, teams and whole care groups wanting to carry out improvements in their work area.

All individuals and teams have the opportunity to access a wide range of tools including the model for improvement

toolkit used to design, test and implement changes for low level improvements and the six step quality improvement project toolkit used to manage larger scale quality improvement projects which covers each step of our bespoke six-stage process from identification of the challenge faced, using QI tools to help understand the problems, generating and testing ideas, right through to implementation and sharing of stories.

The quality improvement model offered to all colleagues across the organisation spans the four quadrants of: people, training, skills and knowledge, support and connecting and sharing.

Our people are at the heart of the model and it is important to us that we have effective leadership for improvement.

Our Trust Board members have received training on quality improvement tools and techniques for data and measurement and each of our Executive team has undertaken training on quality improvement including the Institute of Healthcare Certificate of Quality and Safety.

Creating a workplace culture that supports quality improvement is vital to ensuring our systematic approach to improvement is embedded across the Trust.

As a Trust we are proud of our #allofusimprove approach and offer to our staff. Our approach to quality improvement is a vital part of our mission to be relevant today and ready for tomorrow.

6. Risks

Risks identified in the delivery of this framework include:

- Procedures, processes and systems not embedded throughout the Trust to support effective risk management
- A lack of collective commitment internally in promoting a culture of effective risk management
- A lack of personal responsibility for individually identifying, assessing and managing risk within their own area of responsibility

Key risks will be mitigated in line with this framework and risk appetite. An implementation plan for the Framework is outlined at **Appendix 6** and monitoring and compliance with the framework is outlined at **Appendix 1**.

7. Resourcing, staffing and technology related issues

Risk management needs to be an integral part of our work right across the organisation. The framework has been designed not to create additional activity, but to align resources and efforts based on Trust priorities. It is, therefore, vital the implementation plan is incorporated into the annual planning process rather than viewed as separate activities.

The Trust's approach to risk management training in respect of Trust Board and the Extended EMT is outlined in **Appendix 6** and set out in the **Risk Management Procedure**.

8. Next steps and governance arrangements

This framework is reserved for agreement at Trust Board and will be delivered through our EMT. The Director of Strategy, Inclusion and Change is accountable for delivery. Implementation of the framework will see involvement from teams across the organisation. An implementation plan for the Framework is set out in **Appendix 6**.

Directors are responsible for the identification, assessment and management of risk within their own area of responsibility. **Trust Board**, as a whole, provides leadership of the organisation within a framework of prudent and effective controls that enable risk to be assessed and managed. Trust Board is required to approve an annual self-certification confirming that risk management systems are effective and fit for purpose.

The **Chief Executive** has overall responsibility for risk management across the Trust and delegates general risk management responsibilities to all Executive and Operational Directors. Individual directors have lead responsibility for specific areas of risk management, which are detailed in **Appendix 5**.

Managers are responsible for the management of day-to-day risks of all types within their remit and budget allocation. They are charged with ensuring that risk assessments are undertaken within their own service area on a proactive basis, ensuring risks identified are appropriately managed and controlled, and that risks which cannot be controlled or prevented are recorded on the appropriate risk register at the appropriate level. Individual managers should:

- Ensure adherence to Trust policies and procedures to support effective risk management
- Raise staff awareness of the key objectives in the risk management framework
- Foster a supportive environment to facilitate the reporting of risks and incidents
- Manage clinical and non-clinical risks in their area, including risks to the Trust's reputation
- Manage communications, including adherence to Trust policy
- Ensure staff are aware (including sub-contractors) of risks in the working environment

- Ensure staff training needs are identified and addressed
- Ensure adherence to standing orders, standing financial instructions and scheme of delegation

All staff have responsibility for managing risk within their own sphere of responsibility, including:

- Awareness of organisational and health and safety risk assessments and of any measures (such as, policies and procedures) that are in place to mitigate risks
- Identifying and reporting hazards and risks arising out of work-related activities
- Awareness of the requirement to report risks and how this is done within the Trust
- Working within their area of competence and identify their own training needs
- Following Trust policies and procedures
- Contributing to identification of risks and follow up actions in the risk register

9. Evaluation and review

This framework covers a period of three years and will be evaluated and reviewed in April 2028.

Monitoring of risk and the effectiveness of the Risk Management Framework is undertaken through:

- Review of the Framework by Trust Board every three years
- Scrutiny of Trust Board committee minutes as a standing item on the Trust Board agenda
- Internal and external audit activity
- Scrutiny of the assurance framework and risk register by Trust Board quarterly and by the Executive Management Team monthly
- Triangulation of risk process monitored by the Audit Committee
- Areas of underachievement and potential risk highlighted through the Integrated Performance Report to Trust Board monthly
- Directors' reviews with the Chief Executive
- The Chief Executive's reviews with the Chair

Compliance with the framework will be monitored through established risk processes already in place within the organisation. These are outlined in **Appendix 1**.

10. Appendices

Appendix 1 – Monitoring compliance with the framework

Risk process	Purpose	Frequency	Lead	Outcome
Review of the Risk Management Framework	To ensure it is appropriate for the Trust, reflects current priorities and the external environment, and is fit for purpose.	Every three years	Company Secretary	To ensure Trust Board fulfils its overall accountability and responsibility for risk management in the organisation and that the Trust's approach to risk fits with the Trust's strategic direction.
Annual Governance Statement	Sets out the Trust's systems and processes of internal control	Annual	Chief Executive	Presented to and supported by Trust Board. Included in the Trust's annual report and accounts. Scrutinised by the Audit Committee, Trust Board and NHSE).
Trust Board Committees review of their effectiveness	To ensure Trust Board committees are meeting their terms of reference and providing assurance to Trust Board of their effectiveness in scrutinising risk in the organisation.	Annual	Committee Chairs and lead Directors/Company Secretary	Annual report presented to each Committee by the Committee Chair and lead Director. Committee undertakes a review of its terms of reference to ensure relevance and appropriateness, approves its annual work programme and undertakes a self-assessment. The annual report is then presented to the Audit Committee to provide assurance to Trust Board.
Audit Committee review of the effectiveness of risk committees	To ensure Trust Board committees are meeting their terms of reference and providing assurance to Trust Board of their effectiveness in scrutinising risk in the organisation.	Annual	Chair of Audit Committee	Presented to the Audit Committee, which provides assurance to Trust Board.
Ongoing work of risk committees	Scrutiny of risk and its management	Committees meet a minimum of four times per year	Non-Executive Chairs / Lead Directors/ Director of Finance and Resource / Company Secretary	Feedback to Trust Board and annual reports to the Audit Committee and, through the Committee, to Trust Board.

Risk process	Purpose	Frequency	Lead	Outcome
Internal audit programme	This takes a risk-based approach to provide assurance that the Trust's key internal controls are robust, appropriate and fit for purpose. The programme forms the basis of the Head of Internal Audit Opinion and the Accounting Officer's Annual Governance Statement.	Annual work programme	Director of Finance, Estates and Resource	Presentation of reports to the Audit Committee. Head of Internal Audit Opinion forms a key part of the Trust's annual reporting statements. Supported by independent review of Trust annual report, accounts and Quality Accounts.
Internal audit of risk management processes	To provide assurance that the Trust's processes are robust, appropriate (fit for purpose) and are followed.	Annual	Internal audit / Director of Finance and Resource	Presentation of report to Audit Committee.
Review of the Trust's appetite for risk.	To ensure that the Trust's strategic direction, objectives and annual plan reflect its appetite for risk and is consistent with the Trust's mission, vision and values.	Annual (as part of annual planning)	Chair and Chief Executive	Agreement of the Trust's strategic direction and annual plan to ensure the Trust meets its objectives and manages risk in an effective way at a level appropriate to the Trust.
Risk management training	To ensure that the Trust's approach to risk management is embedded at the highest level within the organisation.	Annually	Director of Finance and Resource	Trust Board and members of the Extended Executive Management Team undertake mandatory risk management training annually via information booklet available on the intranet. To be rolled out to other staff as appropriate.
Triangulation of risk, performance and governance	To triangulate performance, risk and governance to demonstrate that all key strategic risks are captured by the risk management process; risks are appropriately highlighted and managed through the governance committees and operational meetings; and there is a clear link between risk management and identifying areas of poor performance by cross referencing the content of the performance report to the risk register.	Quarterly	Director of Finance and Resource / Company Secretary	Presentation of report to Audit Committee.

Appendix 2 – Risk registers: guidance on use of the risk grading matrix

Choose the most appropriate domain for the identified risk from the left-hand side of the table, then work along the columns in same row to assess the severity of the risk on the scale of 1 to 5 to determine the consequence score, which is the number given at the top of the column.

	Consequence score (severity levels) and examples of descriptors				
	1	2	3	4	5
Domains	Negligible	Minor	Moderate	Major	Catastrophic
Impact on the safety of patients, staff or public (physical/psychological harm)	Minimal injury requiring no/minimal intervention or treatment. No time off work	Minor injury or illness, requiring minor intervention Requiring time off work for >3 days Increase in length of hospital stay by 1-3 days	Moderate injury requiring professional intervention Requiring time off work for 4-14 days Increase in length of hospital stay by 4-15 days RIDDOR/agency reportable incident An event which impacts on a small number of patients	Major injury leading to long-term incapacity/disability Requiring time off work for >14 days Increase in length of hospital stay by >15 days Mismanagement of patient care with long-term effects	Incident leading to death Multiple permanent injuries or irreversible health effects An event which impacts on a large number of patients
Quality/complaints/audit	Peripheral element of treatment or service suboptimal Informal complaint/inquiry	Overall treatment or service suboptimal Formal complaint (stage 1) Local resolution Single failure to meet internal standards Minor implications for patient safety if unresolved Reduced performance rating if unresolved	Treatment or service has significantly reduced effectiveness Formal complaint (stage 2) complaint Local resolution (with potential to go to independent review) Repeated failure to meet internal standards Major patient safety implications if findings are not acted on	Non-compliance with national standards with significant risk to patients if unresolved Multiple complaints/independent review Low performance rating Critical report	Totally unacceptable level or quality of treatment/service Gross failure of patient safety if findings not acted on Inquest/ombudsman inquiry Gross failure to meet national standards

	Consequence score (severity levels) and examples of descriptors				
	1	2	3	4	5
Domains	Negligible	Minor	Moderate	Major	Catastrophic
Human resources/ organisational development/staffing/ competence	Short-term low staffing level that temporarily reduces service quality (< 1 day)	Low staffing level that reduces the service quality	Late delivery of key objective/ service due to lack of staff Unsafe staffing level or competence (>1 day) Low staff morale Poor staff attendance for mandatory/key training	Uncertain delivery of key objective/service due to lack of staff Unsafe staffing level or competence (>5 days) Loss of key staff Very low staff morale No staff attending mandatory/ key training	Non-delivery of key objective/service due to lack of staff Ongoing unsafe staffing levels or competence Loss of several key staff No staff attending mandatory training /key training on an ongoing basis
Statutory duty/ inspections	No or minimal impact or breach of guidance/ statutory duty	Breach of statutory legislation Reduced performance rating if unresolved	Single breach in statutory duty Challenging external recommendations/ improvement notice	Enforcement action Multiple breaches in statutory duty Improvement notices Low performance rating Critical report	Multiple breaches in statutory duty Prosecution Complete systems change required Zero performance rating Severely critical report
Adverse publicity/ reputation	Rumours Potential for public concern	Local media coverage – short-term reduction in public confidence Elements of public expectation not being met	Local media coverage – long-term reduction in public confidence	National media coverage with <3 days service well below reasonable public expectation	National media coverage with >3 days service well below reasonable public expectation. MP concerned (questions in the House) Total loss of public confidence
Business objectives/ projects	Insignificant cost increase/ schedule slippage	<5 per cent over project budget Schedule slippage	5–10 per cent over project budget Schedule slippage	Non-compliance with national 10–25 per cent over project budget Schedule slippage Key objectives not met	Incident leading >25 per cent over project budget Schedule slippage Key objectives not met

	Consequence score (severity levels) and examples of descriptors				
	1	2	3	4	5
Domains	Negligible	Minor	Moderate	Major	Catastrophic
Finance including claims	Small loss Risk of claim remote	Loss of 0.1–0.25 per cent of budget Claim less than £10,000	Loss of 0.25–0.5 per cent of budget Claim(s) between £10,000 and £100,000	Uncertain delivery of key objective/Loss of 0.5–1.0 per cent of budget Claim(s) between £100,000 and £1 million Purchasers failing to pay on time	Non-delivery of key objective/ Loss of >1 per cent of budget Failure to meet specification/ slippage Loss of contract / payment by results Claim(s) >£1 million
Service/business interruption Environmental impact	Loss/interruption of >1 hour Minimal or no impact on the environment	Loss/interruption of >8 hours Minor impact on environment	Loss/interruption of >1 day Moderate impact on environment	Loss/interruption of >1 week Major impact on environment	Permanent loss of service or facility Catastrophic impact on environment

Likelihood score (L)

What is the likelihood of the consequence occurring?

The frequency-based score is appropriate in most circumstances and is easier to identify. It should be used whenever it is possible to identify a frequency.

Likelihood score	1	2	3	4	5
Descriptor	Rare	Unlikely	Possible	Likely	Almost certain
Frequency How often might it/does it happen	This will probably never happen/recur	Do not expect it to happen/recur but it is possible it may do so	Might happen or recur occasionally	Will probably happen/recur but it is not a persisting issue	Will undoubtedly happen/recur, possibly frequently

Risk scoring = consequence x likelihood (C x L)

	Likelihood				
Consequence	1	2	3	4	5
	Rare	Unlikely	Possible	Likely	Almost certain
5 Catastrophic	5	10	15	20	25
4 Major	4	8	12	16	20
3 Moderate	3	6	9	12	15
2 Minor	2	4	6	8	10
1 Negligible	1	2	3	4	5

For grading risk, the scores obtained from the risk matrix are assigned grades as follows

	1 - 3	Low risk
	4 - 6	Moderate risk
	8 - 12	High risk
	15 - 25	Extreme risk

Instructions for use

- 1 Define the risk(s) explicitly in terms of the adverse consequence(s) that might arise from the risk.
- 2 Use table 1 to determine the consequence score(s) (C) for the potential adverse outcome(s) relevant to the risk being evaluated.
- 3 Use table 2 to determine the likelihood score(s) (L) for those adverse outcomes.
- 4 Calculate the risk score, multiplying the consequence by the likelihood: $C \text{ (consequence)} \times L \text{ (likelihood)} = R \text{ (risk score)}$

Appendix 3 – Risk appetite statement

Risk Appetite, definition, and purpose

Risk appetite can be defined as the amount of risk, on a broad level, that an organisation is willing to accept in the pursuit of its strategic objectives.

The Trust recognises that its long-term sustainability depends upon optimising risk in relation to the delivery of its strategic objectives, and also that the relationship with patients, staff, contractors, the general public, our partners and other stakeholders is key to the Trust's success.

As such, SWYPFT upholds a duty of care to ensure that health and safety is not compromised and therefore, taking into consideration that most risks cannot be completely eliminated, the Trust will have a low tolerance to risks that could result in a negative impact on the health and safety of patients, staff, contractors, the general public and other stakeholders.

However, within the boundaries of regulatory constraints, the Trust has an open appetite to take well-considered and balanced risks to pursue innovation and opportunities where positive gains can be expected, whilst being confident that through good risk management the threats can be averted.

The Trust will review its risk appetite at least annually as part of the review of its Risk Management Strategy.

A risk appetite enables Trust Board to formally communicate to the organisation the level and type of risks it is willing to accept to achieve the Trust's mission, strategic objectives and organisational priorities. It will assist decision-makers in understanding the degree of risk to which they are permitted to expose the Trust whilst encouraging enterprise and innovation. The Public Accounts Committee (PAC) supports well managed risk-taking, recognising that innovation and opportunities to improve public services often requires risk taking, providing the organisation has the ability, skills, knowledge, and training to manage those risks well. The statement of risk appetite is by its nature dynamic, and its drafting will be an iterative process that reflects the challenging environment facing the Trust and the wider NHS.

Process

It is recognised that the Trust may have limited influence on external factors that can impact on the Trust's ability to manage a risk down to the risk target. A risk target is just that: a target the Trust is aiming to manage down to; however, on occasions the Trust may have to revise that target to the 'least worst' option. This might be the case in situations that might be in the best interest of service users, but present risk to the Trust. The Executive Management Team (EMT), through its regular review of the Organisational Risk Register. and the Operational Management Group through its review of care group risk registers, will consider if there is a likelihood of a risk not being managed down to the right level. A risk exception report will be presented to the relevant committee or forum of Trust Board (as set out in their Terms of Reference) setting out the actions being taken and the consequences of managing the risk to a higher risk appetite level. Through EMT, a scan across care group and directorate registers of risks scoring below 15 and above 15 (before mitigation) will allow any themes / hot spots to be identified, mitigating actions agreed and referral to the appropriate committee / forum of the Board as applicable.

Trust Board will review its risk register, and associated mitigations at the quarterly Business and Risk meeting, ensuring any risks, emerging risks, changes in activities or key risk indicators are reviewed in accordance with the risk appetite of Trust Board. This may involve taking considered risks into account where the long-term benefits outweigh any short-term impact. The impact of these risks will be reflected through the Board Assurance Framework.

The Board Assurance Framework (BAF) provides the Trust Board with a simple but comprehensive method for effective and focused management of the risks to meeting the Trust's three strategic aims shown below:

1. We will live our values

2. We will be the best we can be

3. We will be ambitious

The Trust's Risk Management Strategy sets out the Trust's risk scoring approach, which is based on the likelihood of an event happening multiplied by the consequence of the action. When considering risk appetite and areas of risk the Trust will take into consideration any potential impact on inequalities, maintaining a low threshold in this regard.

Risk appetite target scores

We have reviewed and defined our risk appetite in line with the 'Good Governance Institute risk appetite for NHS Organisations' matrix update published in May 2020 and aligned to the Trust's own risk assessment matrix as shown in the table below.

Risk appetite target scores

Note: The target score is that after the risk has been mitigated through relevant action plans.

Good Governance Institute matrix	Risk appetite Level	Risk target score (range)
None: Avoidance of risk and uncertainty is a key organisational objective	None	Nil
Minimal: (ALARP: As low as reasonably possible) Preference for ultra-safe delivery options with low inherent risk and only for limited reward potential	Low	1-3

Good Governance Institute matrix	Risk appetite Level	Risk target score (range)
Cautious: Preference for safe delivery options that have a low degree of inherent risk and may only have a limited potential for reward.	Moderate	4-6
Open: Willing to consider all potential delivery options and choose, whilst also providing an acceptable level of reward (and value for money (VFM))	High	8-12
Seek: Eager to be innovative and to choose options offering potentially higher business rewards (despite greater inherent risk)	Extreme	15-20
Mature: Confident in setting high levels of risk appetite because controls, forward scanning and responsiveness systems are robust.	Extreme	25

Application

Within our Risk Management Governance Framework, we have defined the following five broad areas of risk which have been used to frame the Trust's risk appetite statement. *Note: The risk appetite and risk targets noted are indicative and for discussion at Trust Board.*

<u>Clinical Safety and Quality risks:</u> Risks arising as a result of clinical or healthcare practice(s) or those risks created or exacerbated by the environment, such as cleanliness or ligature risks or workforce i.e. the inability to recruit or retain an appropriately skilled workforce	Good governance matrix: Minimal – Cautious	Risk target 1-6
	Risk appetite: Low-Moderate	
• Examples of clinical safety and quality risk are: • Risks to service user/public safety • Risks to meeting recognised clinical and/or environmental standards e.g FIRM (Formulation informed risk management), record keeping, infection prevention and control, NICE guidance and compliance with Patient Safety Incident Response Framework • Risks to staff safety • Risks to meeting mandatory training requirements, within limits set by the Board. • Workforce risk, inability to attract and retain appropriately qualified staff to deliver Trust plans • Risk that decisions external to the Trust impact on ability to deliver high quality care		

<u>Compliance risks:</u> Failure to comply with its licence, CQC registration standards, or failure to meet statutory duties, such as compliance with health and safety legislation.	Good Governance matrix: Minimal-Cautious	Risk target 1-6
	Risk appetite: Low - Moderate	
• Examples of compliance risks are:		

- Risk of failing to comply with NHS England requirements impacting on the Trust's license
- Risk of failing to comply with CQC standards and potential of compliance action.
- Risk of failing to comply with health and safety legislation
- Risk of failing to comply with Fire Safety (England) Regulations 2022
- Risk of failing to comply with data security protection toolkit standards, including meeting cyber essentials standards
- Risk of failing to comply with our statutory responsibilities under the Equality Act 2010, especially the Public Sector Equality Duty (PSED) and the Health and Social Care Act 2022.
- Risks to meeting statutory training requirements e.g. information governance, Oliver McGowen training
- Risks of failing to comply with PCREF (Patient and carer race equality framework)
- Risks of failing to comply with the Accessible Information Standard
- Risks of failing to comply with environmental standards such as its obligations under the Climate Change Act

Financial risks: Risks which might affect the sustainability of the Trust or its ability to achieve its plans, such as loss of income.	Good Governance Matrix: Minimal-Cautious	Risk target 1-6
	Risk appetite: Low-Moderate	
• Examples of financial risks are:		
• Financial risk associated with plans for existing/new services as the benefits for patient care may justify the investment • Risk of breakdown in financial controls, loss of assets with significant financial value • Risk of impact of wider financial system pressures on the Trust’s ability to deliver its own operational and financial plan		

Strategic risks: Risks generated by the national and political context in which the Trust operates that could affect the ability of the Trust to deliver its plans.	Good Governance Matrix: Open	Risk target 8-12
	Risk appetite: High	
• Examples of strategic risk are:		
• Delivering transformational change ensuring a safe place to receive services and a safe place to work • Developing partnerships that enhance the Trust’s current and future services • Delivering the Trust Social Responsibility and Sustainability strategy in line with the NHS Long Term and Green plans • The risk the Trust fails to innovate and fulfil its strategic ambitions • Ensuring that equality, involvement and inclusion is central to everything the Trust does to reduce inequalities, tackle stigma and eliminate discrimination		

<u>Business risks:</u> Risks which might affect the Trust's ability to achieve its plans or damage to the Trust's public reputation which could impact on commissioners' decisions to place contracts with the organisation.	Good governance matrix: Open	Risk target 8-12
	Risk appetite: High	
• Examples of business risks are:		
• Lack of appropriate Estates and Facilities structures and systems to deliver high quality, modern safe services • Missed opportunities, the Trust fails to identify opportunities for growth impacting on business sustainability and development • Decisions external to the Trust (e.g. decommissioning) impact on ability to deliver effective services • Reputational risk, negative impact on perceptions of service users, staff, and the wider system, including commissioners and providers (in carrying out the role of lead/coordinating provider for services across West and/ or South Yorkshire), and the public		

Appendix 4 – Board risk assurance and risk escalation framework

Introduction

South West Yorkshire Partnership NHS Foundation Trust (the Trust) has developed a range of policies, systems and processes which when drawn together comprise a robust framework for the assurance of quality and escalation of risk within the Trust.

This document describes the assurance and risk escalation framework and demonstrates how the Trust's risk systems and learning from events is monitored and escalated where necessary by an effective governance and committee structure.

A robust governance framework is essential for the organisation as it provides assurance to the Trust Board, the Members' Council, senior managers and clinicians that the essential standards of quality and safety are being met by the Trust. It also provides assurance that the governance processes are embedded throughout the organisation.

This framework describes the responsibility and accountability for the Trust's governance structures and systems, through which Trust Board receives assurance or escalates concerns and risks related to quality of services, performance targets, service delivery and achievement of strategic objectives. It also addresses under-performance and ensures that potential performance problems are identified early, and action plans developed to rectify or mitigate the issues.

Culture

The Trust has an open, honest and learning culture, which is set out in its mission and values and underpinned in its Being Open policy. The Trust encourages the reporting of all adverse incidents by its staff and the reporting of complaints and concerns by service users, their carers and relatives, supported through an independent advocacy process if required.

Staff Involvement

The Trust has an overarching Equality Diversity and Inclusion Strategy and a number of policies and mechanisms which encourage staff at all levels to be involved in performance monitoring and to raise concerns about any risk issues.

Examples include Raising Concerns/Freedom to Speak Up (Whistleblowing) Policy, Equity Guardians, Freedom to Speak up Guardians, Being Open Policy, Risk Management Framework, Incident Reporting and Management Policy, Customer Services Policy, safeguarding policies and procedures, staff surveys, through the Staff Side Partnership Forum and the Trust formal staff network groups; carers staff network group, disability staff network group, LGBT+ staff network group and the Race, Equality and Cultural Heritage (REACH) staff network group.

Governor Involvement

The Members' Council was fully consulted in the development of the Equality Diversity and Inclusion Strategy, as a result of which it now receives regular updates against strategy action plans. This enables Trust governors' access to information which they may wish to bring to the Trusts attention through risk escalation route. This is in addition to governor engagement with patients, carers and staff through engagement in quality monitoring visits and Patient Led Assessment of the Care Environment (PLACE) visits.

Service user / carer / public involvement

The Trust encourages service users, their carers and the public to make comments and / or raise concerns both formally and informally via a number of mechanisms, such as customer services, patient experience surveys, friends and family test, service line specific service user and carer groups, Patient Led Assessments of the Care Environment (PLACE).

Internal and external sources of assessment and assurance

The Trust has a number of internal and external sources of assessment and assurance, including the following:

Internal

- Board and committee assurance reports
- Trust Action Group (TAG) reports
- Integrated Performance Report (IPR)
- Minutes (of key meetings)
- Internal Audit reports
- Local Counter Fraud reports
- Staff Survey Results
- Individual Patient Safety Incident Investigation (PSII)
- Annual Governance Statement
- Data Security and Protection Toolkit (DSPT)
- Quality Impact Assessments (QIAs)
- Equality Impact Assessments (EIAs)
- Members' Council Quality Group
- Quality Monitoring Visits

External

- External visits / inspection reports such as CQC visits
- Independent reviews (such as Ombudsman Reports)
- External accreditations such as IIP, Clinical Network Reviews
- Quality Account and its independent audit
- Annual Audit letter
- National staff surveys
- National Patient Satisfaction Surveys (Friends and Family Test)
- Patient Led Assessment of the Clinical Environment (PLACE) Inspection reports
- Healthwatch reports
- External Audit reports

The Trust also commissions additional external reviews of activities, services and events where a need for independent assessment and assurance has been identified.

Commissioners and Regulators

The Trust is a large organisation offering a wide number of services across multiple places. During 2022/23 the Trust moved to operate within two Integrated Care Systems (ICS) and delivers services within a complex and financially challenging environment. Formal mechanisms are in place by which key stakeholders, such as commissioners and regulators can raise concerns such as contract performance and quality issues. The NHS Improvement Quarterly Review Meetings (QRMs) with the EMT will continue in this new operating environment.

Trust's internal quality and performance monitoring

The Trust has a number of groups where quality and performance is discussed. The key performance meetings are the Operational Management Group (weekly) and EMT performance and monitoring meeting (monthly). Trust Board committees provide assurance following each meeting including approved committee minutes.

Performance is managed at a local level through monthly Care Group performance and governance meetings. Each Care Group considers its performance against key performance

targets and reviews the performance of individual service lines within the Care Group against these indicators. Where performance issues are identified, actions plans are developed and implemented to address the issues.

Reporting of key issues adversely affecting performance is done on an exception basis at OMG and any key risks or areas of performance requiring escalation are elevated to EMT to be managed accordingly.

The Quality and Safety Committee receives performance information and intelligence relating to all aspects of quality, safety, risk and regulation, and patient experience; likewise the Mental Health Act Committee has a specific focus on aspects relating to the Trust's implementation of the Mental Health Act. Any significant risks or issues are reported through to the Trust Board through the monthly committee assurance report and the Board Assurance Framework (BAF), which is submitted quarterly to the Board.

Trust Board receives an Integrated Performance Report (IPR) each month. It details a range of indicators with the most recent month's performance against target on a red, amber, green (RAG) rated basis. Any areas of adverse performance are reported to Trust Board via more detailed exception report as requested by the Trust Board.

A 'ward-to-Board' dashboard is in operation which gives specific information on key performance indicators on a service line basis, ensuring through the trio partnership of clinician, general manager and practice governance coach, all areas are providing safe, effective care and a positive patient experience.

Value for Money Plans (VFMPs)

The Trust has in place a process for the development, evaluation and monitoring of Value for Money Plans which includes a robust Quality Impact Assessment (QIA) for each individual scheme, that sets out an independent assessment of the quality and risk to services of implementing the project. Projects evaluated as high risk require further work on mitigation of risks or substitution of alternative schemes.

Quality Strategy and Quality Account

The Trust has in place a Quality Strategy, which sets out the Trusts key priorities for quality improvement, which are aligned to the CQC domains. The delivery of the continuous quality improvement described by the strategy and plan is underpinned by the Trust's seven step Quality Improvement Framework.

The Trust's annual Quality Account, which is prepared in line with the requirements of the NHS Act 2009, Health and Social Care Bill 2012 and our regulator NHS Improvement, provides a report to the public about the quality of services the Trust provides and the progress against its strategic and annual quality objectives. It provides an opportunity for scrutiny on how the Trust performs in relation to quality and sets out the focussed areas for quality improvement for the forthcoming year. Independent assurance is obtained on the Trust's Quality Account from commissioners, other external stakeholders and the Trust's external auditors.

Compliance with Regulators

Care Quality Commission (CQC)

As a provider of health services, the Trust is registered with the CQC and has systems in place to ensure compliance with its fundamental standards. This includes internal inspections based on five key questions in relation to whether services are safe, effective, caring, responsive and well led. A self-assessment tool kit is available for teams to benchmark against each of the fundamental standards.

The Quality and Safety Committee receives exception reports on any areas of noncompliance or with compliance concerns. Exception reports also provide assurance against the steps being taken to ensure compliance is achieved.

The CQC also undertakes a mixture of announced and unannounced inspections, leading to ratings of individual services and the provider overall.

NHS England

Trust Board confirms compliance with NHS England (NHSE) regarding the conditions of its provider Licence in relation to all targets and national core standards, on an annual basis as part of the Annual Business Plan (Operating Plan) submission and through the submission of other requested statements to NHSE as requested.

Risk escalation framework

Risks are assessed using the methodology described in the Risk Management Framework. Risk assessments are entered onto the Datix risk management system to inform the organisation's risk registers.

The Corporate / Organisational Risk Register is reviewed and updated by EMT on a cyclic basis and reviewed on a quarterly basis by the Trust Board in conjunction with the Trust's Board Assurance Framework (BAF) and Risk Appetite Statement.

Board Assurance Framework (BAF)

Strategic risks are identified by the Trust Board and reviewed quarterly on receipt of the BAF and annually against the Trust's strategic objectives. The Board Assurance Framework (BAF) underpins the delivery of the Trust strategic objectives and includes the Trusts' highest risks. The Board Assurance Framework is the process by which the Trust produces risk statements that align to the Trusts principal risks to delivering its strategic objectives in line with Trust values and a commitment to the community it serves.

The BAF is reviewed on a quarterly basis by EMT and Trust Board. The BAF provides a vehicle for Trust Board to be assured that the systems, policies and people in place are operating in a way that is effective and focussed on the key risks which might prevent the Trust's objectives being achieved.

Board Assurance Framework – structure and process

Approved by Trust Board: 25 April 2023

Assuring board effectiveness

There are a number of ways in which Trust Board assures itself that it is fulfilling its duties effectively. These include:

- Committee annual self-assessments and Annual Reports
- External effectiveness reviews including the CQC's well-led review
- Annual assessment against the Annual Governance Statement, completed in accordance with NHS Improvement's Annual Reporting manual
- Board strategic and development sessions
- Scrutiny of Trust Board and committee Minutes, robust monitoring and follow up of the Trust Board's action points and work programme
- Trust Board director induction and appraisal
- Assurance reports from the committees to Trust Board

Learning Lessons

The Trust is committed to learning lessons in an open and transparent way. It does this through the examination of complaints, serious incidents, staff feedback, service user and carer feedback, internal reports, external reviews, assessments, inspections and the review of national reports and reviews.

Appendix 5 – Trust Board and Members Council responsibilities

Trust Board has overall responsibility for setting the strategic direction of the organisation, ensuring the Trust meets all external compliance duties and promoting a culture of effective risk and performance management. Individual Directors have specific responsibilities in relation to risk management.

Chief Executive	As Accounting Officer, has overall accountability for risk within the organisation, in particular, internal control systems and organisational governance, Risk Management Framework and Business Plan. Until the substantive appointment of a new Director of Finance and Resources the Chief Executive is responsible for environmental management, fire safety, health and safety, security management, and waste management. Director lead for the strategic approach to the Trust's estate.
Director of Finance and Resources	Executive Director with accountability for strategic financial planning and management, demonstrating probity, including counter fraud, and value for money. Substantive responsibility for facilities and estates maintenance, catering and food hygiene, performance management and information management and technology. Holds the role of Senior Information Risk Officer and lead Director for co-ordination of the risk agenda.
Medical Director	Executive Director with accountability for medical leadership, including professional development and practice effectiveness, medicines management, public health, research and development, professional leadership (with the Director of Nursing, Quality and Professions), the Mental Health Act, and shared accountability for clinical quality with the Director of Nursing, Quality and Professions.
Chief People Officer	Executive Director with accountability for overseeing the delivery of the workforce strategic plan for making the Trust a great place to work, the organisational development strategy, workforce planning, recruitment and retention, and staff wellbeing, including Occupational Health.
Director of Nursing Quality and Professions	Executive director with accountability for clinical governance and clinical safety, and compliance, including safeguarding children and vulnerable adults, system for reporting, managing, analysing and learning from incidents, including serious incidents, managing violence and aggression, infection prevention and control, medical devices, clinical records management, and professional leadership for non-medical clinical staff. Has shared accountability for clinical quality with the Medical Director. Holds the role of Caldicott Guardian.
Director of Strategy and Change (Deputy Chief Executive)	Executive Director who supports the Trust Board to set the strategy and strategic direction including priorities for the Trust. She plays a key role in strategic partnership developments in our places and systems and her portfolio also includes leading the integrated change team; marketing, communications, involvement and inclusion teams, and library and knowledge management services. She is also the executive lead for our charities and the equality involvement and inclusion committee.
Chief Operating Officer	Director with strategic and operational accountability for general community, mental health, CAMHS, learning disability and forensic services in all of our places (including overview of our role as Lead Provider for West and South Yorkshire).
Director of Provider Development	Director with strategic and operational accountability for partnership and integrated care system arrangements.
Non-Executive Directors	Non-Executive Directors form part of the unitary board and provide independent views and independent thinking to board discussion. Non-Executive Directors ensure the effectiveness of the Executive team and maintain oversight of execution of the agreed Trust strategy by the Executive team.

Members' Council	Governors are responsible for holding non-executive directors to account both individually and collectively for their scrutiny of the executive directors execution of the agreed strategic objectives.
-------------------------	---

There are also a number of statutory and regulatory responsibilities across the Trust relating to risk as follows.

Function	Lead
Accounting Officer	Chief Executive
Caldicott Guardian	Director of Nursing, Quality and Professions
Senior Clinical Information Oversight	Chief Clinical Information Officer
Oversight of Risk Management	Assistant Director of Corporate Governance
Corporate Governance	Company Secretary
Controlled Drugs	Chief Pharmacist
Counter Fraud	Director of Finance, Estates and Resources
Director for security	Chief People Officer
Emergency planning	Chief People Officer
Fire	Chief Executive
Health and Safety	Chief Executive
Income from overseas	Chief Operating Officer
Lead Governor	Public Governor of the Members' Council
Registration Authority Manager	Director of Finance, Estates and Resources
Senior Independent Director	Non-Executive Director
Senior Information Risk Officer	Director of Finance, Estates and Resources
Freedom to Speak Up	Audit Committee Chair

Appendix 6 – Implementation plan

Action required	Action plan	Review date	Lead	Training implications
Review Board meeting cycle, agenda setting process and committee functions to ensure focus of each meeting is clear and ensure adequate focus on strategy, risk and performance.	Review agenda setting to ensure balance of focus on strategy and retrospective performance monitoring. Review terms of reference and membership of committees to ensure clarity of function and effective Board assurance.	Annually	Chair, Chief Executive and Company Secretary	Board development sessions and strategy sessions built into cycle
Continue to develop improved performance reporting to Trust Board to ensure information is well integrated, timely and accessible.	Annual review of the Integrated Performance Report and metrics to ensure they meet Board, internal and national requirements	Annually	Director of Finance and Resource and Director of Nursing, Quality and Professions	Individual and whole Board development to support effective governance
Each committee to undertake an annual self-assessment exercise and produce an annual report to Trust Board demonstrating how it has met its terms of reference.	Self-assessment exercise to be undertaken by each committee to review performance against annual plan and interface with other committees and reported to Trust Board by the Audit Committee	Annually (April)	Chair of Audit Committee, other Committee Chairs and lead director for each committee	None
Work programmes to be developed annually and reviewed regularly for each Committee to ensure efforts are focused on management and monitoring of risks identified in the assurance framework, risk register and annual plan.	Annual work programme to be developed for each committee and reported to Trust Board. Work programmes are amended in the light of changes to the risk register	Annually (April)	Committee chair and lead director	To be identified as part of work programme
Assessment of effectiveness of Board and individual directors	External facilitated assessment of Trust Board effectiveness as part of the well-led review. Chair's appraisal. Chair's quarterly reviews with Non-Executive Directors. Chief Executive's quarterly reviews with Directors.	Every 3 years Annually Quarterly Quarterly	Chair / CE led SID with Members' Council Chair Chief Executive	None None None None

Action required	Action plan	Review date	Lead	Training implications
	Assessment of skills and experience of Trust Board to ensure remains fit for purpose as a Foundation Trust Board.	As part of role of Nominations Committee	Chair	Access to training as appropriate
Assessment of effectiveness of Members' Council and individual governors	Annual evaluation session Individual reviews with Chair Individual induction meetings with the Chair Trust responsibility to ensure development and maintenance of skills and knowledge of governors	Annually (February) Annually (Jan/Feb/Mar) On appointment Annual Training Programme	Chair Chair Chair Chair	Review of training arrangements for governors underway

Appendix 7 - Risk related Trust documents – policies, procedures, protocols and guidelines relating to risk management, internal systems of control, and regulatory and statutory obligations

All Trust policies and procedures have a role in proactively managing risk by putting in place systems and processes to effectively control and reduce identified risks.

A full list of current Trust policies, procedures and guidelines is available on the Trust intranet system. This is a constantly changing list as policies, procedures and related documents are developed and updated to ensure that they reflect current legislation, guidelines, good practice and learning.

Appendix 8 – Checklist for review and approval

Date: April 2025

	Risk Management Framework	Yes/No/Unsure	Comments
1.	Title		
	Is the title clear and unambiguous?	YES	
	Is it clear whether the document is a guideline, policy, protocol or standard?	YES	
	Is it clear in the introduction whether this document replaces or supersedes a previous document?	YES	
2.	Rationale		
	Are reasons for development of the document stated?	YES	
3.	Development Process		
	Is the method described in brief?	N/A	
	Are people involved in the development identified?	N/A	
	Do you feel a reasonable attempt has been made to ensure relevant expertise has been used?	N/A	
	Is there evidence of consultation with stakeholders and users?	YES	
4.	Content		
	Is the objective of the document clear?	YES	
	Is the target population clear and unambiguous?	YES	
	Are the intended outcomes described?	YES	
	Are the statements clear and unambiguous?	YES	
5.	Evidence Base		
	Is the type of evidence to support the document identified explicitly?	YES	
	Are key references cited?	YES	
	Are the references cited in full?	N/A	
	Are supporting documents referenced?	YES	

6.	Approval		
	Does the document identify which committee/group will approve it?	YES	
	If appropriate have the joint Human Resources/staff side committee (or equivalent) approved the document?	N/A
