

Children's Speech and Language Therapy Race game – Blends

The aim of this game is to make it to the finish line first whilst practising production of targeted speech sounds.

This pack includes race games for all sounds in all word positions.

You will need;

- Race game with your child's target sound
- Dice
- 2 counters

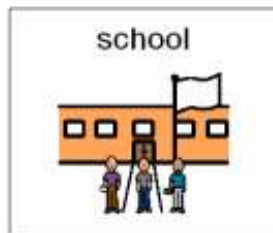

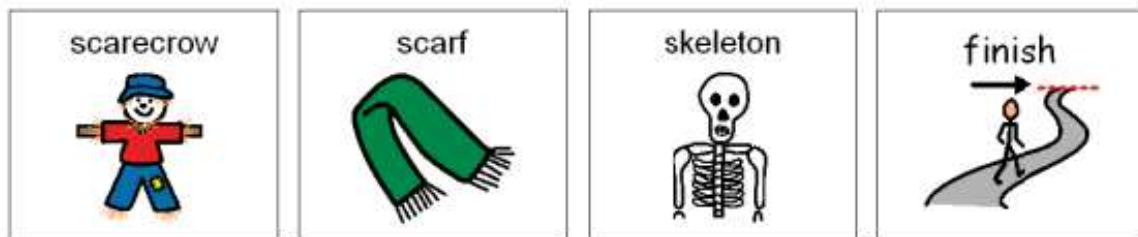

How to play the race game

Place your counters on the 'start' position. Take it in turns to roll the dice and move your counters around the board. When you or your child land on a word you can practise saying this word with their target sound.

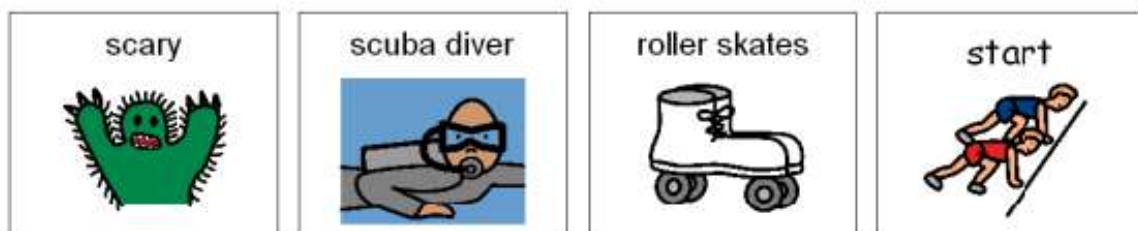

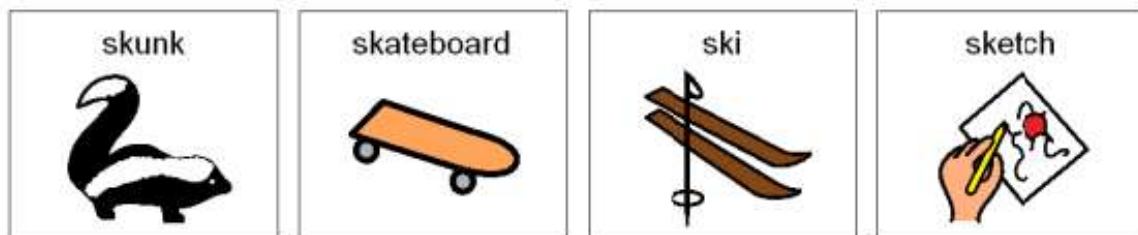

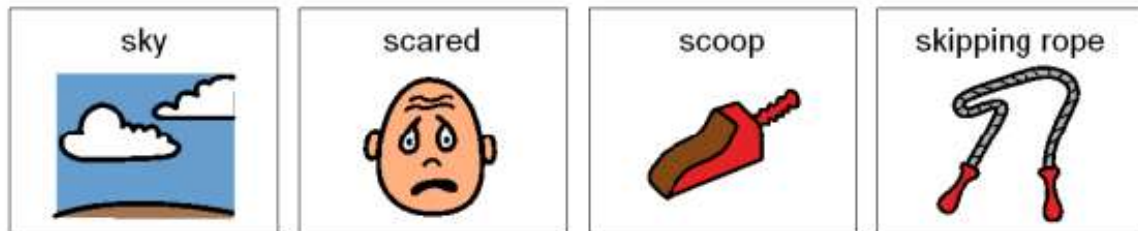

Race games can be used when practising [speech steps](#) with your child.

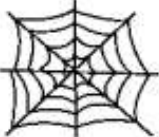

Your speech and language therapist will let you know which sounds your child is working on. You do not need to use all the pictures with your child. Just the ones you have been shown to use.
